We are familiar with the subject matter of the above-identified application (U.S. Serial Number 10/075,821) of which we are contributing inventors.

We are also co-inventors of U.S. Patent Number 6,477,150. As co-inventors of U.S. Patent Number 6,477,150, the applied reference was derived from co-inventors of this application and therefore should not be considered to be an invention by another. Additionally, the subject matter of U.S. Patent Number 6,477,150 and the claimed present invention were, at the time the invention was made, owned by QUALCOMM Incorporated or subject to an obligation of assignment to QUALCOMM Incorporated. Therefore, U.S. Patent Number 6,477,150 should not be considered as prior art under 35 U.S.C. § 102(e).

The undersigned declare further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S. Code 1001 and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
